

2023 Subject Index

Title	Page
A rare case of giant adrenal ganglioneuroma	100
A case of dapstone-induced hemolytic anemia related to G6PD enzyme deficiency	15
A case of malignant melanoma presented with lombar vertebra fracture	12
A rare case of acute basophilic leukemia	73
Antifungal drugs	41
Association of amyloidosis and lung cancer; a case of small cell lung cancer masked by amyloidosis with 18-fdg uptake	76
Autoimmune hemolytic anemia associated with clear cell renal carcinoma: A case report	102
Chronic lymphocytic leukemia	59
Cold autoimmune hemolytic anemia	68
Donor cell leukemia after allogeneic hematopoietic stem cell transplantation: a case report	47
Effect of tyrosine kinase inhibitor and conventional chemotherapy on COVID 19 antibody level in hematological patients	1
Evaluation of relationship between hyperuricemia and hyperhomocysteinemia	31
Evaluation of the frequency of hepatitis b virus reactivation and the importance of hepatitis b prophylaxis in hematology patients receiving immunosuppressive therapy: a single-center study	83
Gastric cancer patient characteristics in a city in the Central Anatolian Region of Turkey: a single-center descriptive study	36
Hereditary hyperferritinemia cataract syndrome with iron deficiency : a case report	107
Pancreatic metastasis of renal cell carcinoma: case report	109
Ponatinib-induced dilated cardiomyopathy: a case report	104
Relationship between pancreatic cancer and Maresin 1	18
Retrospective evaluation of our patients diagnosed with advanced pancreatic cancer	49
β-catenin expression in myelodysplastic syndromes and myeloproliferative neoplasms in bone marrow, in relation to CD34 and CD117 status	54
The evaluation of presepsin level and bacterial infection in neutropenic patients	5
The place of initial serum sodium and globulin ratio in the prognosis estimation of patients with lung cancer	88
The relationship between hepatocellular carcinoma and Resolvin D1	96
The relationship between immunologic system and ferritin levels in patients with transfusion dependent thalassemia: a retrospective single-center study	79
The role of initial sodium and globulin values in the prognosis prediction of patients diagnosed with colon cancer	24
Tumor markers: when, whom?	9
