

2024 Subject Index

Title	Page
A case report of relapsed/refractory primary central nervous system lymphoma	76
A comment on 'The relationship between hepatocellular carcinoma and resolvin D1' by Erdin et al.	100
A rare blood transfusion complication: Bacillus thermoamylovorans bacteremia and diffuse pustular rash	51
A rare case of olfactory neuroblastoma	98
Can bispecific antibody therapies for multiple myeloma be a risk factor for the development of secondary haematopoietic malignancy? A case report	93
Causes of acquired isolated neutropenia in adulthood: a single center study	59
Comparison of efficacy and tolerability of single agent and double agent chemotherapy regimens in first-line treatment of elderly patients with her-2 negative metastatic gastric cancer	15
Contributions of ELN2022 update and new genetic analysis tests in the risk assesment and treatment of acute myeloid leukaemia	22
Current status and potential future of PAI-1 inhibitors	72
Determination of the therapeutic effects of apigenin on chronic myeloid leukemia stem cells; 24 a mechanistic approach	24
Diagnostic white blood cells can be a predictor for mutation existence in myelodysplastic syndromes: the role of next generation sequencing	87
Do mean platelet volume and platelet count vary on a daily or gender basis?	6
Does early granulocyte colony-stimulating factor administration in autologous peripheral blood stem cell transplantation shorten the duration of hospitalization in patients with multiple myeloma?	41
Effect of vitamin D on prognosis in patients with gastric cancer	1
Evaluation of the relationship between immunohistochemical markers and the prognosis of patients with hepatocellular carcinoma	33
Factors affecting prognosis in myelodysplastic syndrome: an 11 years' experience from a tertiary care center	10
Follow-up of patients given isoniazid prophylaxis in multiple myeloma patients underwent autologous stem cell transplantation	63
Get two with one: bevacizumab treatment in hereditary hemorrhagic telangiectasia with concomitant cirrhosis	20
Kikuchi-Fujimoto disease: a rare cause of fever and lymphadenopathy in a 19-year-old male	95
Myeloid differentiation primary response 88 expression in central nervous system lymphomas	83
Retrospective evaluation of indications for therapeutic plasmapheresis procedures applied in our center	28
Shedding light on allogeneic hematopoietic stem cell transplantation success: exploring the relationship between donor vitamin D and parathormone levels and recipient engraftment and stem cell quantity	79
Superior vena cava syndrome	47

The investigation of janus kinase 2 and calreticulin mutations in patients with essential thrombocytosis	54
The role of therapeutic plasma exchange in the treatment of patients with septic shock- single center experience	67
